

Position Title	Welders –2nd Shift
Category	Production
Job#	2019007
Company	Fab-Tech Inc.
Location	Colchester, VT
Date Posted	2/22/19
Type	Full-time

Critical Process Systems Group (CPS) is a group of manufacturing and design companies providing innovative product solutions to the semiconductor, life science, chemical processing, gas systems, wastewater, mining, power generation and other industries. We provide a broad range of products & services including liquid, chemical, and gas storage, blending, and delivery control, pre-fabricated high purity process utility modules, corrosive fume exhaust duct, and airflow control devices. With the breadth of our product offerings and engineering capabilities we can offer broad turnkey solutions or targeted niche products depending on our customer's needs and desires.

This position is with our company **Fab-Tech**, which manufactures PermaShield Pipe (PSP®), a revolutionary hybrid fluoropolymer coated stainless steel duct system recognized worldwide as the premier solution for corrosive and hazardous fume exhaust needs. PermaShield Pipe is a fully engineered, modular fume exhaust system that combines the reliability of stainless steel with the superior corrosion resistance of Fab-Tech's proprietary PermaShield Fluoropolymer Barrier Coating. PSP carries a highly regarded FM4922 approval as well.

SUMMARY: Multiple welder positions on 2nd shift. The primary responsibilities of this position include performing GTAW and GMAW in a manner that ensures the production of our high quality line of PSP® products.

RESPONSIBILITIES:

- Set up the work area, select and verify the material for production, and meet the daily welding production and quality demands of the Weld Shop.
- Weld the following in different positions and on different gauges: stainless steel and black iron. Occasionally expected to weld other materials.
- Troubleshoot the welding equipment.
- Comply with health, safety, (including OSHA), and environmental procedures, and ensure the cleanliness of the area.
- Comply with established production philosophies designed to increase production, safety and/or quality; e.g., Lean Manufacturing, 5s and TWI methodologies.
- Continue to learn and expand one's capacity within this job by increasing knowledge and skill base
- Perform various other assignments per Department Lead's direction.

SKILLS:

- Strong GMAW, GTAW welding skills and a knowledge of how all the equipment operates.
- Can speak and understand English with an emphasis on complying with: directions, fundamental shop safety procedures, and production standards.
- Able to read and understand cut sheets and engineering prints thoroughly.
- Knowledge of basic metallurgy and weld symbols
- Knowledge of basic sheet metal layout

- Good communication and teamwork skills
- Math skills to include basic arithmetic and geometry
- Can accurately read a tape measure to 1/16"

EDUCATION: High school diploma or GED required. Minimum 1 year of TIG welding experience in a similar environment.

BENEFITS:

Critical Process System Group offers competitive compensation and a complete benefits package that includes medical (individual and family premiums shared between employer and employee), dental and vision coverage, HSA, Day Care reimbursement, matching 401(k), life insurance, disability, holiday and paid time off.

If you are looking for a future with a company known for its inventiveness and passion for progress, look no further..... **your career is right here!**

Note: CPS and its group companies do not discriminate on the basis of race, age, religious creed, national origin, sex, marital status, veteran status and disability status, with regard to public assistance or any other protected classes.
