<b>Location</b>	Boise, ID
<b>Date Posted</b>	06/25/2019
<b>Type</b>	<b>Full Time</b>

**Critical Process Systems Group (CPS)** is a group of manufacturing and design companies providing innovative product solutions to the semiconductor, life science, chemical processing, gas systems, wastewater, mining, power generation and other industries. We provide a broad range of products & services including liquid, chemical, and gas storage, blending, and delivery control, pre-fabricated high purity process utility modules, corrosive fume exhaust duct, and airflow control devices. With the breadth of our product offerings and engineering capabilities, we can offer broad turnkey solutions or targeted niche products depending on our customer's needs and desires.

This position is with our company **Diversified Fluid Solutions**, which manufactures a variety of chemical blending and distribution equipment, provides technical expertise, and delivers flawless support to meet a diverse array of high purity chemical applications.

#### **SUMMARY:**

Assist DFS Sales efforts by performing estimating and quoting of products.

#### **RESPONSIBILITIES:**

- Develop and maintain solid product expertise
- Review construction documents and understand scope of work to bid
- Execute take-offs and construction documents
- Input take-offs into computer spreadsheet
- Obtain pricing for materials
- Obtain bids from subcontractors
- Prepares cost analysis in computer by verifying material, labor, equipment, subcontractor and overhead costs incurred in the installation of items
- Where predetermined standard(s) are not available, makes an estimate
- Informs immediate supervisor of any observed inaccuracies or omissions in quoted items or computer database
- Answer customer questions and seek technical expertise when necessary.
- Manage both small and large multi-order projects.
- Interface with internal resources (engineering/manufacturing/shipping) to exceed customer needs.
- Attend daily operations meeting as assigned
- Maintain safe work practices
- Other activities as assigned

#### **SKILLS:**

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

**EDUCATION:**

- Minimum of an Associate's degree plus one-year experience or Equivalent experience. Experience in a manufacturing environment is a plus.
- Solid understanding of all facets of manufacturing processes, from fabrication, fit-up to final product.
- Strong product and technical knowledge and/or the ability to assimilate extensive information related to our products and applications
- Proficiency with AutoCad, Solidworks and blueprint reading
- Strong proficiency with Microsoft applications including Word, Excel, and Outlook and the ability to learn new programs quickly.

**BENEFITS:**

**Critical Process System Group** offers competitive compensation and a complete benefits package that includes medical (individual and family premiums shared between employer and employee), dental and vision coverage, HSA, Day Care reimbursement, matching 401(k), life insurance, disability, holiday and paid time off.

If you are looking for a future with a company known for its inventiveness and passion for progress, look no further..... **your career is right here!**
